|           | First-aid measures: Skin contact                                                                                                       | No special measures required.                                                                                  |

|            |                                                                                             |                                                                                               |
|------------|---------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------|
|            | First-aid measures: Eye contact                                                             | Wash immediately with copious amounts of water. Obtain medical attention if symptoms develop. |
|            | First-aid measures: Inhalation                                                              | No special measures required.                                                                 |
|            | First-aid measures: Ingestion                                                               | Rinse mouth immediately; drink 1-2 glasses of water (or milk). Obtain medical attention.      |
| <b>4.2</b> | <b>MOST IMPORTANT SYMPTOMS / EFFECTS, ACUTE AND DELAYED</b>                                 |                                                                                               |
|            | Not expected to present a significant hazard under anticipated conditions of normal use.    |                                                                                               |
| <b>4.3</b> | <b>INDICATION OF IMMEDIATE MEDICAL ATTENTION AND SPECIAL TREATMENT NEEDED, IF NECESSARY</b> |                                                                                               |
|            | Treat symptomatically.                                                                      |                                                                                               |

**SECTION 5 FIRE-FIGHTING MEASURES**

|            |                                                       |                                                                                                                                                                                                                                      |
|------------|-------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>5.1</b> | <b>SUITABLE EXTINGUISHING MEDIA</b>                   |                                                                                                                                                                                                                                      |
|            | Suitable Extinguishing Media                          | Foam. Dry powder. Carbon dioxide. Water spray. Sand.                                                                                                                                                                                 |
|            | Unsuitable Extinguishing Media                        | Do not use a heavy water stream.                                                                                                                                                                                                     |
| <b>5.2</b> | <b>SPECIFIC HAZARDS ARISING FROM THE CHEMICAL</b>     |                                                                                                                                                                                                                                      |
|            | Hazardous Decomposition Products in case of fire      | Toxic fumes may be released. Thermal decomposition can lead to the release of irritating gases and vapours.                                                                                                                          |
| <b>5.3</b> | <b>SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS</b> |                                                                                                                                                                                                                                      |
|            | Firefighting instructions                             | Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent firefighting water from entering the environment.                                                                   |
|            | Protective equipment for firefighters                 | Do not enter fire area without proper protective equipment, including respiratory protection. Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing. |

**SECTION 6 ACCIDENTAL RELEASE MEASURES**

|            |                                                                              |                                                                                                                                                                                            |
|------------|------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>6.1</b> | <b>PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES</b>   |                                                                                                                                                                                            |
|            | General measures                                                             | Evacuate unnecessary personnel.                                                                                                                                                            |
|            | Personal Precautions, PPE and Emergency Procedures                           | Wear recommended personal protective equipment. For further information, refer Section 8.                                                                                                  |
|            | Prevention Measures for Secondary Accidents                                  | Avoid release to the environment.                                                                                                                                                          |
|            | <b>For non-emergency personnel</b>                                           |                                                                                                                                                                                            |
|            | Protective equipment                                                         | Wear personal protective equipment. Wear suitable protective clothing. For further information, refer Section 8.                                                                           |
|            | Emergency procedures                                                         | Ventilate spillage area. Avoid contact with skin, eyes and clothing. Avoid breathing dust / fume / gas / mist / vapours / spray.                                                           |
|            | <b>For emergency responders</b>                                              |                                                                                                                                                                                            |
|            | Protective equipment                                                         | Do not attempt to take action without suitable protective equipment. Wear recommended personal protective equipment. For further information, refer Section 8.                             |
| <b>6.2</b> | <b>ENVIRONMENTAL PRECAUTIONS</b>                                             |                                                                                                                                                                                            |
|            | Avoid release to the environment. Prevent entry to sewers and public waters. |                                                                                                                                                                                            |
| <b>6.3</b> | <b>METHODS AND MATERIALS FOR CONTAINMENT AND CLEANING UP</b>                 |                                                                                                                                                                                            |
|            | For containment                                                              | Soak up with inert absorbent material (for example sand, sawdust, a universal binder, silica gel). Collect spillage.                                                                       |
|            | Methods for cleaning up                                                      | Take up liquid spill into absorbent material. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials. |
|            | Other information                                                            | Dispose of materials or solid residues at an authorized site.                                                                                                                              |

## SECTION 7 HANDLING AND STORAGE

### 7.1 PRECAUTIONS FOR SAFE HANDLING

|                         |                                                                                   |
|-------------------------|-----------------------------------------------------------------------------------|
| Advice on Safe-Handling | Use common rules for working with chemicals.                                      |
| Hygiene Measures        | No special measures required. Do not eat, drink or smoke when using this product. |

### 7.2 CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES

|                     |                                                                                                           |
|---------------------|-----------------------------------------------------------------------------------------------------------|
| Storage conditions  | Store in original containers; in a cool and well-ventilated place. Keep container closed when not in use. |
| Packaging materials | High-density polyethylene (HDPE) bottles, jerry cans.                                                     |

## SECTION 8 EXPOSURE CONTROLS / PERSONAL PROTECTION

### 8.1 CONTROL PARAMETERS

|                                      |
|--------------------------------------|
| No additional information available. |
|--------------------------------------|

### 8.2 APPROPRIATE ENGINEERING CONTROLS

|                                  |                                                                                               |
|----------------------------------|-----------------------------------------------------------------------------------------------|
| Appropriate engineering controls | Ensure good ventilation.                                                                      |
| Environmental exposure controls  | Avoid release to the environment.                                                             |
| Other information                | Do not eat, drink or smoke during use. Keep away from food. Avoid contact with eyes and skin. |

### 8.3 INDIVIDUAL PROTECTION MEASURES, SUCH AS PERSONAL PROTECTIVE EQUIPMENT (PPE)

|                          |                                                                                                                |
|--------------------------|----------------------------------------------------------------------------------------------------------------|
| Eye protection           | Safety glasses not normally required; recommended when handling undiluted product involving risk of splashing. |
| Hand protection          | Rinse and dry hands after use. For prolonged contact, protection of skin may be necessary.                     |
| Skin and body protection | Take off all contaminated clothing immediately. For prolonged contact, protection of skin may be necessary.    |
| Respiratory protection   | Personal protection is not normally required.                                                                  |

## SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES AND SAFETY CHARACTERISTICS

### 9.1 BASIC PHYSICAL AND CHEMICAL PROPERTIES

|                                         |                               |
|-----------------------------------------|-------------------------------|
| Physical State                          | Liquid.                       |
| Colour                                  | Transparent, yellow coloured. |
| Odour                                   | Characteristic.               |
| Melting point / freezing point          | – 2 °C (melting point).       |
| Boiling point / boiling range           | 96°C.                         |
| Flammability                            | Non-flammable.                |
| Lower and upper explosion limit         | Not available.                |
| Flash point                             | 66.5°C.                       |
| Auto-ignition temperature               | Product is not self-igniting. |
| Decomposition temperature               | Not available.                |
| pH                                      | 7.00 – 11.00.                 |
| Kinematic viscosity                     | Not available.                |

## SECTION 10 STABILITY AND REACTIVITY

|             |                                                                                                      |
|-------------|------------------------------------------------------------------------------------------------------|
| <b>10.1</b> | <b>REACTIVITY</b>                                                                                    |
|             | The product is non-reactive under normal conditions of use, storage and transport.                   |
| <b>10.2</b> | <b>CHEMICAL STABILITY</b>                                                                            |
|             | Stable product. Keep container tightly closed in a dry, cool and well-ventilated place.              |
| <b>10.3</b> | <b>POSSIBILITY OF HAZARDOUS REACTIONS</b>                                                            |
|             | No dangerous reactions known under normal conditions of use.                                         |
| <b>10.4</b> | <b>CONDITIONS TO AVOID</b>                                                                           |
|             | Avoid storing in direct sunlight.                                                                    |
| <b>10.5</b> | <b>INCOMPATIBLE MATERIALS</b>                                                                        |
|             | Incompatible with other floor cleaners, acids, bleach and household chemicals.                       |
| <b>10.6</b> | <b>HAZARDOUS DECOMPOSITION PRODUCTS</b>                                                              |
|             | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## SECTION 11 TOXICOLOGICAL INFORMATION

This product is safe for consumers and other users under intended and reasonably foreseeable use.

|             |                                                 |                                                                                    |
|-------------|-------------------------------------------------|------------------------------------------------------------------------------------|
| <b>11.1</b> | <b>INFORMATION ON TOXICOLOGICAL EFFECTS</b>     |                                                                                    |
|             | Acute toxicity (oral)                           | Not classified (Based on available data, the classification criteria are not met). |
|             | Acute toxicity (dermal)                         | Not classified (Based on available data, the classification criteria are not met). |
|             | Acute toxicity (inhalation)                     | Not classified (Based on available data, the classification criteria are not met). |
|             | Skin corrosion / irritation                     | Not classified (Based on available data, the classification criteria are not met). |
|             | Serious eye damage / irritation                 | Not classified (Based on available data, the classification criteria are not met). |
|             | Respiratory or skin sensitization               | Not classified (Based on available data, the classification criteria are not met). |
|             | Germ cell mutagenicity                          | Not classified (Based on available data, the classification criteria are not met). |
|             | Carcinogenicity                                 | Not classified (Based on available data, the classification criteria are not met). |
|             | Reproductive toxicity                           | Not classified (Based on available data, the classification criteria are not met). |
|             | STOT - single exposure                          | Not classified (Based on available data, the classification criteria are not met). |
|             | STOT - repeated exposure                        | Not classified (Based on available data, the classification criteria are not met). |
|             | Aspiration hazard                               | Not classified (Based on available data, the classification criteria are not met). |
| <b>11.2</b> | <b>INFORMATION ON LIKELY ROUTES OF EXPOSURE</b> |                                                                                    |
|             | Likely routes of exposure                       | Ingestion, Inhalation, Skin contact and Eye contact.                               |

## SECTION 12 ECOLOGICAL INFORMATION

This product is safe for the environment at the concentrations predicted under normal use conditions and accidental spill scenarios. Packaging components are compatible with the conventional solid waste management practices.

|             |                                                                   |                                                                                    |

This information is offered in good faith and provided without any warranty, expressed or implied regarding its correctness or accuracy. Individual ingredient information is as per supplier's brochure or information available in public domain. Product information is generated in-house. The recommended industrial hygiene and safe handling procedures are believed to be generally applicable. The product should be stored, handled and used in accordance with good industrial hygiene practices and in conformity with legal regulations. However, each user should review these recommendations in the specific context of the intended use and determine whether they are appropriate. Users of this product bear full responsibility to determine safe conditions for use of this product and to assume liability for any loss damage or expense whatsoever arising out of the improper use of the product.
